## Description

Renowned naval architect Philippe Briand in conjunction with Italian styling house Garroni have met the challenge to develop an innovative and unique yacht with beautiful form and effortless function.

An additional challenge was to create a yacht of this size that did not require a skipper and crew by using an easily handled sail-plan and electrically assisted sail handling. A host of other innovative features such as the rear dinghy garage/swim platform make life on board even more enjoyable.

Down below, the spacious interior is bathed in light provided by the numerous hatches, windows in the deck, plus large ports in the hull. The choice of layouts and exclusive options will satisfy the varied needs of each and every discerning owner.

Contact us for a quotation including any factory or locally fitted options.

Note: The price offered is for a 'base boat' only, which includes the standard inventory as per Jeanneau specifications, duty, GST, shipping to a major Australian port, freight insurance, local transport, antifoul and commissioning. Prices may be subject to currency fluctuations and factory discounts and may change without notice.
